EXPLANATION OF THE NUMBERING SYSTEM ASSIGNED TO JCS GREEN PAPERS

1. Number System. The numbering system for JCS green papers has been essentially the same since 1942. Its purpose is identification to facilitate control, referencing, and action assignment of papers referred to the JCS for information and consideration.

a. Numbers assigned to JCS green papers consist of three components as follows:

- (1) Series Number--May be either three or four digits; e. g., JCS 570; JCS 1259; JCS 2472.
- (2) Slant Number--Preceded by a slant with one to three digits, starting with /1 in numerical sequence through /999; e.g., JCS 570/5; JCS 1259/75; JCS 2472/145.
- (3) Dash Number--Preceded by a dash with one or two digits, starting with -1 in numerical sequence; e. g., JCS 570/5-1; JCS 1259/75-7; JCS 2472/145-10.  
(NOTE: Not all JCS green papers will have a dash number)

b. The following is an example of a complete JCS number for reference and identification:

JCS 2472/145-10

10th related paper/action.

145th paper published within this series.

Subject series on Vietnam.

2. Series Numbers. The series numbers are designated according to: (1) subject category; (2) countries and geographic areas; (3) organizations, agencies and commands; and (4) international organizations. For example:

JCS 141.....LORAN

JCS 1887....Middle East

JCS 570.....Bases and USBRO

JCS 1977....JCS Organization

JCS 1259....U&S Commands

JCS 2472....Vietnam

JCS 1541....NORAD Command

JCS 2502....NATO

a. The series numbers identify the specific subject category of the JCS green paper. When the paper contains two or more subject matters, a general subject category series number is used. In those cases where there is no general subject category series number the paper is assigned the series number of the primary subject addressed in the paper.

b. JCS series numbers with one and two digits have been used in the past and have been designated as inactive. Certain JCS series using three and four digits have also been designated as inactive.

3. Slant Numbers. After the paper is assigned the JCS series number, a slant number is selected. The slant numbers begin with /1 and run in sequence through /999. When the slant number reaches /999, a new JCS series number is designated for the same subject category. For example, JCS 2343/999, which pertains to Vietnam, was replaced by a new JCS series number JCS 2472.

4. Dash Numbers. The dash number was introduced as a modification of the JCS paper numbering system in April 1963. Its purpose is to indicate the immediate relationship of a series of actions by extending an originally assigned slant number to subsequent papers. For example:

JCS Series No....	JCS 570.....	Subject: Military Bases in the Pacific Area (U)
Slant (/) No.....	JCS 570/7....	Attached DEPSECDEF memo for JCS, 5 Jan 75, directing subject study. Action to SAGA for study and report.
Dash (-) No.....	JCS 570/7-1..	Attached SAGA memo for JCS, 31 Jan 75, with enclosed study. Referred to J-5 for comments and recommendations.
	JCS 570/7-2..	Attached CINCPAC letter to JCS, 5 Feb 75, for- warding review and comments.
	JCS 570/7-3..	Attached CNO memo for JCS, 7 Feb 75, forwarding comments.
	JCS 570/7-4..	Attached CSAF memo for JCS, 8 Feb 75, forwarding comments.
	JCS 570/7-5..	Attached CSA memo for JCS, 9 Feb 75, forwarding comments.
	JCS 570/7-6..	J-5 report for JCS, 15 Feb 75, JCS decision on (RED BORDER), 17 Feb 75; Memo for SECDEF by JCSM-24-75, 17 Feb 75.
	JCS 570/7-7..	Attached SECDEF memo for JCS, 25 Feb 75, recommendations approved.
	JCS 570/7-8..	Attached implementing directive SM-333-75, 27 Feb 75 to Service Chiefs and CINCPAC.
